EDUCATION

Bachelor of Technology in Computer Engineering

June, 2020 - Jul, 2024

SSVPS's Bapusaheb Shivajirao Deore College of Engineering Dhule

CGPA: 7.55

SKILLS

Technical skills: Core Java, Object-Oriented Programming
Development: HTML, CSS, JavaScript, DBMS, SDLC, MySQL
Framework: Spring, JPA, JDBC, Hibernate, JSP Servlets, Rest API, Spring Boot
Tools: Bootstrap, GitHub, VS Code, Eclipse
Languages: English(Professional), Marathi/Hindi(Native)

EXPERIENCE

Web Development Internship

Feb, 2024 - Apr, 2024

Acmegrade Pvt. Ltd

Bangalore, India

- Acquired in-depth web development expertise while collaborating with a skilled team to deliver a high-traffic web application, maintaining 99.9% uptime.
- Reduced page load time by 1.5 seconds through architectural improvements, contributing to a 15–20% increase in session duration based on internal test users.
- Improved backend and front-end development proficiency by over 50% through consistent project work, mentorship, and applying industry best practices in live applications.

PROJECTS

Bank Management System (ATM Interface)

- Created a Java GUI-based ATM simulator using AWT and Swing, offering an intuitive interface for seamless banking interactions.
- Implemented core features like deposit, withdrawal, fast cash, PIN change, and balance inquiry, enabling over 200+ user interactions.
- Connected the application to a MySQL database via JDBC, managing 1000+ transaction records with real-time updates and robust error handling.

E-Commerce Web Application (Java, Spring Boot, Security, API, MySQL)

- Developed a full-stack e-commerce web application using Spring Boot with real-time product listing and secure user access.
- Integrated Spring Security and role-based authorization, simulating concurrent access by users with consistent performance.
- Streamlined product management and notifications using Hibernate, JDBC pooling, and Spring Boot Mail API, while enhancing security and UX through validation, sanitization, and responsive design.

Portfolio (HTML, CSS, JavaScript)

- Designed and developed a fully responsive personal portfolio with light and dark mode toggle and interactive sections to showcase projects and skills.
- Integrated EmailJS API for direct messaging, reducing load by simplifying client-side communication.
- Used analytics tools to track engagement and optimize user flow, resulting in an 80% improvement in interaction rates.
- Improved load speed and UX by minimizing CSS/JS and using lazy loading for images.

CERTIFICATION AND ACHIEVEMENT

- Java certification from Code360.
- Solved 250+ problems on the Leetcode platform 
- Web Development by Acmegrade Pvt Ltd.
