EDUCATION

B.Tech Computer Engineering, SSVPS's B.S.Deore College of Engineering Dhule
CGPA: 7.55

01/2021 - 07/2024

SKILLS

Technical Skills	C, Java, Data Structure & Algorithms
Development	HTML, CSS, JavaScript, ReactJs, DBMS, SQL, SDLC
Tools & Framework	MySQL, VS Code, Bootstrap, GitHub, IntelliJ IDEA
Languages	English(Professional), Marathi/Hindi(Native)

EXPERIENCE

Web Development Intern

02/2024 - 04/2024

Acmegrade Pvt. Ltd

Bangalore, India

- Acquired in-depth web development expertise and partnered with a skilled team to deliver a high-traffic web application, ensuring 99.9% uptime.
- Spearheaded initiatives that boosted application performance by 30% through innovative front-end optimizations, significantly enhancing user experience across multiple platforms.
- Leveraged this internship to accelerate growth and learning by 50%, gaining hands-on experience with cutting-edge technologies and industry best practices, ultimately positioning myself as a valuable asset in the field of web development.

PROJECTS

Bank Management System (ATM Interface)

- Created a Java and SQL-based application on IntelliJ IDEA, simulating real-world ATM functionalities with a user-friendly interface for essential banking transaction.
- Implemented core banking operations such as deposits, cash withdrawals, fast cash options, PIN changes, balance inquiries, and mini statements, optimizing transaction processing.
- Designed an intuitive graphical user interface (GUI) in Java, enhancing user engagement and simplifying transaction workflows, alongside a robust PIN authentication system for secure transactions.
- Established a seamless connection between the banking system and a relational database using JDBC, streamlining management of over 1 million transaction records while ensuring secure handling of user account details.

Text Utils Websites

- Collaborated with local authorities to create a Text Utils web application, providing an intuitive interface for improving text editing needs by 70%.
- The Text Utils application counts text, words, and characters. Our solution outperforms other alternatives by 30% in efficiency and accessibility in efficiency and accessibility, offering easy-to-use features that simplify and enhance text management.
- This user-friendly tool boosts efficiency by up to 60% framework achieved a reduction in customer support calls through quick and efficient text manipulation, including real-time text case conversion and removal of extra spaces and line breaks.

Portfolio

- Constructed a personal portfolio website using HTML, CSS, and JavaScript, featuring a dual-mode interface tailored for enhanced user experience, and implemented analytics tools resulting in an 80% improvement.
- Developed a portfolio website with engaging animations and seamless page transitions, leading to a 20% increase in user session duration and overall site improvement.
- Integrated the EmailJS API to send emails directly from the website without requiring server-side code, reducing initial load time by 20% and optimizing site performance.
