EDUCATION

Bachelor of Technology in Computer Engineering

June, 2020 - Jul, 2024

SSVPS's Bapusaheb Shivajirao Deore College of Engineering Dhule

CGPA: 7.55

SKILLS

Technical skills:	Core Java, OOPS, Data Structure & Algorithms
Development	HTML, CSS, JavaScript, DBMS, SDLC, MySQL
Tools & Framework	Spring Boot, JDBC, Rest API, Hibernate, JSP Servlets, Bootstrap, GitHub
Languages	English(Professional), Marathi/Hindi(Native)

EXPERIENCE

Web Development Internship

Feb, 2024 - Apr, 2024

AcmeGrade Pvt. Ltd

Bangalore, India

- Acquired in-depth web development expertise while collaborating with a skilled team to deliver a high-traffic web application, maintaining 99.9% uptime.
- Reduced page load time by 1.5 seconds through architectural improvements, contributing to a 15–20% increase in session duration based on internal test users.
- Improved backend and front-end development proficiency by over 50% through consistent project work, mentorship, and applying industry best practices in live applications.

PROJECTS

Bank Management System (ATM Interface)

- Created a Java and SQL based application simulating using IntelliJ IDEA, real-world ATM functionalities with a user-friendly interface for 100+ transactions.
- Implemented banking features such as deposits, withdrawals, fast cash, PIN changes, and balance inquiries, enhancing, transaction for over 200+ users.
- Integrated the system with a robust and scalable relational database using JDBC, enabling seamless management of over 1000+ transaction records.

E-Commerce Web Application (Java, Spring Boot, Spring Security, API, MySQL)

- Collaborated with local stakeholders to build a real-time e-commerce web application using Spring Boot, leveraging Hibernate ORM and JDBC connection pooling to efficiently manage over 1,000+ product records.
- Used Spring Security and Spring Data JPA with MySQL to provide secure role-based access and efficient data operations, simulating concurrent usage by 50+ users with consistent performance.
- Applied Spring Boot Mail API for email notifications and implemented validation, session security, and input sanitization, reducing security risks by 50% and improving user experience.

Portfolio (HTML, CSS, JavaScript) [↗ Click Here](#)

- Built a responsive portfolio website with a dual-mode interface to enhance user experience, and leveraged analytics tools, resulting in an 80% improvement in engagement
- Added smooth animations and transitions, increasing average session time by 20%.
- Configured EmailJS API to enable direct email sending from the client side, reducing initial load time by 20% and improving site performance.

CERTIFICATION AND ACHIEVEMENT

- Java certification from Code360.
- Solved 250+ problems on the Leetcode platform.
- Web Development by AcmeGrade Pvt. Ltd.
